PREFACE

This tabulation of Environmental Program Administrators listing State officials and their respective areas of responsibility has been assembled to facilitate and improve interstate cooperation and intergovernmental communications. The availability of this information is expected to result in more frequent contact among the various State agencies and expedite responses to environmental issues and problems. The information provided in this tabulation has been verified as correct as of March 1, 1975 by EPA's Regional Offices.

This listing is an updating of the May, 1974 version, e.g., the addition of state agencies having radiation program responsibilities. As in previous years the compilation is subdivided into four sections. The first two sections are arranged according to the uniform Federal regional configuration, i.e., Regions I through X with the States located within each region listed alphabetically. Section III is a compilation of interstate agencies having environmental program responsibilities, while Section IV lists EPA Regional Offices. Comments and suggested changes from users of these tabulations have been incorporated. Users are urged to make their needs known as the listing is updated annually by the Environmental Protection Agency's Office of Regional and Intergovernmental Operations.

Inquiries should be addressed to the organizations or individuals listed under each category.

TABLE OF CONTENTS

	PAGE
Preface	1
Section I - Environmental Water Quality, Water Supply, Industrial Waste Program Administrators	
Region I	2
Region II	4
Region III	5
Region IV	7
Region V	9
Region VI	11
Region VII	13
Region VIII	14
Region IX	16
Region X	18
Section II - Air Quality, Solid Waste, Noise, Pesticides, Radiation Program Administrators	
Region I	20
Region II	22
Region III	23
Region IV	25
Region V	27
Region VI	29
Region VII	31
Region VIII	32
Region IX	34
Region X	36
Radiation -- Regions I through X	37-43
Section III - Interstate Agencies Having Environmental Program Responsibilities	44
Section IV - Environmental Protection Agency Regional Offices	46

DEFINITIONS

Environmental	Those persons having broad authority for the overall supervision of State environmental programs.
Water Quality	Those persons who are, in general, responsible for such State programs as water quality surveillance and enforcement, training, and certification of sewage treatment plant operators, pollution control studies, as well as planning and administering the programs authorized by the Federal Water Pollution Control Act, including establishment of priorities, review of grant applications, plans and specifications and other related activities.
Water Supply	Those persons who are responsible for the drinking water program of the State.
Industrial Waste	Those persons who are leaders in the conduct of the permitting program for industrial discharges, providing technical and advisory assistance to industries and conducting studies relative to the development of industrial effluent standards, and serve as the focal point for technology transfer from EPA of new industrial waste treatment processes.
Air Quality	Those persons who are responsible for review and approval of requests for the construction or modification of air pollution control facilities, development and revision of implementation plans, provide technical assistance, maintain air quality monitoring and surveillance programs and carry out enforcement of air quality standards.
Solid Waste	Those persons who are, in general, responsible for the conduct of surveys of solid waste disposal practices and problems. They also develop solid waste management and disposal plans and approve solid waste disposal projects, as provided for under individual State codes or laws.
Noise	Those persons responsible for the noise pollution control programs of the State.
Pesticides	Those persons responsible for the pesticides control programs of the State.
Radiation	Those persons responsible for radiation control programs of the State.
